Mandate Money Coming Soon?

We recently discovered the State Controller has between \$20 and \$30 million available for school district mandate claims. Which claims will be paid with this money? We have no idea, but checks could be coming by the end of the fiscal year. Watch for your SCO envelopes!

Governor's May Revise Reduces Mandate Money

As expected, mandate reimbursement saw a reduction in the Governor's May Revise. The Governor's Revise provides:

"The May Revision proposes a decrease of \$75 million General Fund to reflect a delay of the third payment of the 15-year payment plan for mandate costs incurred prior to July 1, 2004. Statute requires these costs be fully paid by the 2020-21 fiscal year."

As always, we stay optimistic that the Legislature will add additional revenue for mandate reimbursements during the upcoming Budget Shuffle. We will keep you posted.
